

PUPPY LOVE,  
made to last...

...start with **BRAVECTO® ONE**, stay with **BRAVECTO®**

You know who loves your  
adorable puppy  
more than you do?

FLEAS AND TICKS.

But with **BRAVECTO® ONE** chewable tablet, you can rest easy knowing you are protecting the littlest member of your family. **BRAVECTO® ONE** is indicated for dogs and puppies 8 weeks of age and older, and weighing 2 kg or greater.

Give your puppy the flea and tick protection  
it deserves with **NEW BRAVECTO® ONE**

Early protection  
now begins with  
**BRAVECTO® ONE**

**ONE**

**BRAVECTO®**

**BRAVECTO® ONE** chewable tablet

BRAVECTO® ONE can start protecting puppies as young as **8 weeks of age and weighing 2kg or greater.**

Extended-duration BRAVECTO® chewable tablet and topical solution

**Once puppies reach 6 months of age, transition to extended-duration BRAVECTO®** is easy, providing 12-week protection in a single dose.

## THE CONVENIENCE OF THE EXTENDED DURATION OF BRAVECTO®

The 12-week dosing interval pet parents prefer!\*

- ✓ Fewer doses per year
- ✓ Fewer potential gaps in protection
- ✓ Available as both a tasty chewable tablet and a convenient topical solution
